Project Location South Bangalore
Area 246.50 sq ft + walk-in wardrobe 65 Sq ft

The master suite at the Segs Residence enjoys views of the lush, dense coconut grove below. "The bedroom's aesthetic is headlined by the statement accent wall clad in deep blue silken upholstery, one that finds its roots of inspiration in ornate traditional south Indian handloom fabrics, a modern spin on the classic *serre*," says Chandrashekar. The regal yet calming blue is carried further in the form of the bed-end bench that complements the room's earthy palette. "The walls are finished in a beige lime plaster that gives the surfaces an added sense of dimension whilst exuding visual warmth into the bedroom. The coalition of muted shades with varied patterns creates a visually engaging space that is also easy on the eyes," says Basha.

Pops of colour create a vivid image in this bedroom. The artwork behind the bed creates a playful atmosphere while the patchwork chair by the desk anchors the space. "Warm tones of wood compliment accents of colour while keeping the general palette muted," says Menon.
